

Holiday Greetings

December 1990

Another year is nearly done,
And this our yuletide rhyme is begun.

Let's recycle newspaper by the bale
It will help the ecology, it cannot fail.

If it comes with your paper, it's okay to brown bag it,
But don't throw in extra, junk mail causes havoc.

Magazines alone, cross tied in a bunch
Will help relieve the landfill crunch.

This source of knowledge, entertainment and fun
Recycled like this, can't hurt anyone.

When it comes to cardboard, corrugated's the kind,,
No shiny and flat (cereal boxes), they create a great bind.

Glass bottles and jars, cans and plastic
All placed in one white bag and tied with elastic.

Washed and cleaned, cans without label
Or to pick up your recycles we will not be able.

Money is tight, we all feel the pinch,
But if you make payment on time, it's a cinch.

Our holidays are few, cause they create a big load,
Thanksgiving, Christmas, New Year's, no trucks on the road.

But to ease our chores come 4th of July, Memorial & Labor Day,
Our trucks will service commercial stops only without delay.

Residential service will be a day late,
Two days in one, it is our fate.

So put it out early, act with haste,
We don't want to miss you, cause that would be a waste.

No other holidays, do we take a rest,
We're out on the road doing our best,

To provide you with service for which we can boast,
We now raise our glass to you with this toast,

"May your holidays be merry, your year full of health,
We treasure your friendship for it's worth more than wealth!"

Happy Holidays,
